Residential
Program
every year with
follow up visits

40 Activites
per year

Primary Activity :

Study conducted on
'Problems and Prospects for Community
and Extension work at Chinchani Village'

Aim :

Survey to find the social, economic status of study area

Objectives of this study:

- 1) To find the health, hygiene and sanitation status among the people of study area.
- 2) To find the educational and employment conditions in study area.
- 3) To analyze status of welfare schemes run by government in the study area.
- 4) To detect the occupational and income sources in study area.
- 5) To detect the level of superstition and addiction among the people of study area
- 6) To finalize problems and prospects for community services in study area

Data Collection-

Social, Economic survey of 69 households of Boripada, Moripada and Mangelwada blocks in Chinchani surveyed 20th November 2015.

Social, economic information of household was collected through the pilot tested and standardized interview schedule provided by the NSS Cell of SNDT Women's University, Mumbai.

52 NSS volunteers from the college participated in this survey.

Interview of head of the family present during survey was collected and noted in the sheets.

Analysis –

Collected numerical data was analysis through the SPSS (11.2) software and tabulated drawing the results.

Brief Summary of Findings

...

And some action

Education :

Anganwadis :

12

No of Students :

291

**Primary School : 10
Secondary : 1**

Total Students: 1631
