Mission Millets Conference at SVT College – Posters Presentation

MILLETS IN TEXTILE

Do you know?

Millet starch can be used in various processes in textile industry.

It can be used for :-

- Cotton warp yarn sizing
- Thickner
- Textile printing
- Stabilizer
- Removing wrinkles formed during preparation of fabric
- Stiffness in fabric
- To add weight to fabric

GROWING MILLETS FOR A POSITIVE CLIMATE CHANGE

- Diversifying crop production by including more coarse cereals like millet can build food supply, reduce Green House Gas (GHG) emissions, and enhance climate resilience without compromising on nutritive value.
- Millets are resilient and rain-fed crops that thrive in dry regions and grow well in conditions of low soil fertility and moisture.
- Millets are good for the soil, have shorter cultivation cycles, and require less cost-intensive cultivation.
- Millets are not water or input-intensive, making them a sustainable strategy for addressing climate change.

अमृत महोत्सव

SAREES OF INDIA

India is celebrating its 8th National Handloom Day to honour the Nation's weavers and highlight the legacy of the country's handloom industry. The purpose of the day is to improve public awareness and the contribution of the general public to the socioeconomic growth of weavers.

Let's stand together for
